Summative Assessment Research Project

RHS Academic Honesty Policy

What does Academic Honesty mean?

Respecting and acknowledging the intellectual property of others, including other people's ideas, words, graphs, diagrams, charts and pictures, photographs, works of music, art or literature. Acknowledging all used

sources. It is acceptable to include words, ideas, data, diagrams, tables, graphs, film clips and pictures from books and online sources in assignments. Students must always credit where they have got the information used, both in the body of the written work and on the Works Cited page at the end, using the correct referencing format.

Student's Responsibility:

- Read and understand the Academic Honesty Policy.
- Come to class on time and are prepared for the daily activities.
- Students genuinely attempt formative work, with the work or ideas of others fully and correctly acknowledged through correct use of citations, and understand that it is an opportunity to receive feedback on their learning and make plans for improvement.
- Ensure that summative assessment work is authentically their own, with the work or ideas of others fully and correctly acknowledged.
- Comply with all internal school deadlines.
- Understand the definitions of what is considered academic dishonesty.
- Take ownership of learning by asking for clarification of instructions when necessary and seeking help when needed.
- Talk to teachers when feeling overwhelmed to discuss assignments and time management strategies to reduce the stress.
- Report malpractice and help cultivate a culture of academic honesty at their school.
